**BONUS STAGE**

**PUNCH, BODY BLOW, KNOCK-OUT PUNCH**

To punch, press the A BUTTON. Using the C BUTTON with the A BUTTON makes a BODY BLOW. Pushing A and then C makes a KNOCK-OUT PUNCH which causes considerable damage. Be careful: the stronger this punch, the harder it is to connect with your opponent.

**SUPER ATTACKS**

Based on various combinations of BUTTON and JOYSTICK movement, your character can use a variety of SUPER ATTACKS. Using these will increase your SPIRIT gauge. If you have no SPIRIT remaining, you cannot use a SUPER ATTACK.

**RAZZING**

Tease your opponent with the D BUTTON. Doing this will decrease the SPIRIT gauge of your opponent. CAUTION: Don’t get too close taunting your opponent!

**DASH**

Pushing the JOYSTICK forward or backward twice quickly will cause your character to DASH. This is useful to change or avoid your opponent.

**KICK, ROCKING, SUPER KICK**

Pressing the B BUTTON produces the kick. With the C BUTTON, make a ROLLING KICK. Pressing B then C makes the SUPER KICK, giving your opponent a healthy serving of pain and damage. To be effective, though, you must hit your opponent; this isn’t easy with this command.

**RESTORING SPIRIT POWER**

Depress the A and B BUTTON and don’t release it. Doing this will increase your SPIRIT level. Until you release the Button or reach maximum power, your SPIRIT level will increase.

---

The Bonus Stage appears at various points in the STORY MODE. In completing the Bonus Stage successfully, your power will increase and you will be taught a new Super Attack. After completing the Ultra-Super Attack screen, you should be able to master a new Super Attack.

**SELECT BONUS CANE**

Chop the heads off all of the beer bottles. If successful, your "SPIRIT" gauge will increase.

**THE ICE CRUSH**

Break all of the ice blocks in one blow. Do so, and your Power gauge will increase.

**ULTRA-SUPER ATTACK SCREEN**

In a specified time, you must use a given Super Attack a given number of times. If you can do so, your Super Attacks will consequently become more powerful.
BUY-IN PLAY AND CONTINUE

BUY-IN Play
A player can enter the game at any point in the game. Press the Start Button on the controller not in use and ENTER THE FRAY!! (Controllers are sold separately).

CONTINUE
When the Game Over indication appears on the screen, a number will appear on the screen. This is the number of times you can continue the game. When the counter reaches 0, the game is really OVER. In the story mode, you can continue the game up to 3 times. CONTINUE is not applicable in the 2-Player Mode (VS MODE).

"SPIRIT" GAUGE AND RAZ BUTTONS

After using your SUPER ATTACKs, your "SPIRIT" level will decrease. To restore your "SPIRIT", press down either the A or B BUTTONS. BUT BE CAREFUL! While restoring your "SPIRIT" power, you are vulnerable to attack. Use this function wisely.

To reduce the "SPIRIT" of your opponent, push the RAZ (D) BUTTON. Pushing this button allows your character to seize the opponent and reduce his energy.

In order to emerge from a battle triumphantly, it is first necessary to master the fundamental movements of each character. Use the DASH to your advantage. Master blocking to minimize damage. Each character has his (or her?) special movements and SUPER ATTACKS so study these carefully. YOUR LIFE MAY DEPEND ON IT!!

These commands apply to when the character is facing the right side of the screen. When facing left, these commands are reversed.
